NT

PERSONAL &
EFFECTIVE DEFENSE

Non-lethal self-defense solutions — high-tech, legally compliant, accessible, and effective — designed for citizens, professionals, and security forces..

In an increasingly uncertain world, protecting yourself without resorting to lethal violence is a priority. NT redefines personal defense: innovation, legality, and responsibility within everyone's reach. No firearms license required. No risk of irreversible harm. Only control, deterrence, and real protection.

Both weapons and ammunition are adjusted in power and specifications according to each country's regulations, always ensuring safe and legal use.

- * **Legality**
- * **Effective Deterrence**
- * **Responsibility**
- * **Technological Innovation**

A tactical team in full gear, including helmets, vests, and knee pads, is running down a city street at dusk. They are holding rifles and appear to be in a tactical formation. The background shows a blurred city street with other people and buildings, suggesting a public area. The lighting is warm, with a golden glow from the setting sun.

NT

PERSONAL &
EFFECTIVE DEFENSE

NON-LETHAL TECHNOLOGY FOR YOUR SAFETY

The freedom to protect what matters most. Next-generation non-lethal defense systems — no license, no fear, no irreversible consequences. Designed in the USA, now available.

Projectiles. Maximum Precision, Zero Lethality

Discover our range of projectiles designed to meet all your needs: personal defense, realistic training, and respect for the environment.

DEFCON Kinetic Powerful Impact

Aluminum ammunition that delivers strong, decisive impact.
Perfect for high-risk situations and physical deterrence.
Ideal for distances up to 30 m.

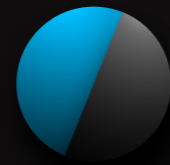

Details

- Aluminum ball 15 g
- Strong impact (glass breaking, hard materials, etc.)

Available Packs

- 25 units (ideal for beginners)
- 95 units (frequent or professional use)
- 400 units (intensive training)

DEFCON Max Paralyzing Impact

Hard polymer ammunition that does not fragment on impact.
Perfect for realistic training and physical deterrence.
Ideal for distances up to 20 m.

Details

- Impact balls with rubber coating, 5 g
- Medium stopping power

Why Choose

- Total versatility: covers everything from training to real defense
- Guaranteed safety: non-lethal, designed to incapacitate without fatal risk
- Clean & eco-friendly: practical solutions like Eco-Kinetic for outdoor use
- Shooting clarity: VI technology to see exactly where it hits

DEFCON Pepper Safe Deterrence

Next-generation pepper capsules (OC + PAVA). Intensifies burning in eyes and mucous membranes to stop aggressors.
Recommended for use in situations of imminent danger.

Details

- Encapsulated balls with rubber coating, 5 g
- OC + PAVA filling

DEFCON Pro Training Safe Preparation

Impact load with chalk or paint powder, perfect for simulating chemical shots.
Safe for realistic tactical training.
Suitable for practicing magazine use and mechanisms without irritants.

Detalles

- Bolas de polvo / pintura prensada de 5gr
